**Nexum, Inc. Announces AppOmni as New Technology Partner**

**CHICAGO, IL, February 24, 2022** – [Nexum, Inc.](#), a leader in networking and cybersecurity solutions, announced today that [AppOmni](#), a top provider of SaaS Security, has joined its growing list of exceptional technology partners.

Nexum® works with an [ecosystem of manufacturers](#) that provide best-of-breed cybersecurity and networking solutions. Through an extensive examination process, Nexum has built an established base of industry-leading solution technology providers. These products offer a full range of solutions crucial to the success of any organization’s IT environment.

AppOmni is a leading provider of SaaS Security Management software. AppOmni’s patented technology scans APIs, security controls, and configuration settings to compare the current state of enterprise SaaS deployments against best practices and business intent. The solution offers fast deployment, instant visibility, and makes it easy for security and IT teams to protect and monitor their entire SaaS environment, from each vendor to every end user. Founded by a team of security veterans from top SaaS providers and cybersecurity vendors, AppOmni’s customer base includes global leaders across technology, healthcare, banking, and finance, as well as many of the most well-known cybersecurity providers.

“Nexum is proud of our continued growth, with world-class engineers and integrated solutions driving our success. It’s critical that we build our ecosystem of best-of-breed partners with industry-leading solution providers like AppOmni,” said David J. Lesser, Founder and CEO of Nexum. “We are thrilled to now offer AppOmni’s SaaS Security Management solution to our customers.”

“AppOmni helps enterprises gain deep, centralized visibility into cybersecurity risk across their SaaS ecosystems, including Salesforce, ServiceNow, Workday, Microsoft 365 and more,” said Todd Wilson, Director of Strategic Alliances at AppOmni. “We’re pleased to join Nexum’s roster of technology partners and look forward to working together to help organizations improve their SaaS security.”

Nexum provides its clients with industry-leading products, services, support, and training. For a full list of Nexum’s technology partners, please visit [www.nexuminc.com/about/partners](http://www.nexuminc.com/about/partners).

**About Nexum, Inc.**

Nexum, Inc. is a cybersecurity and networking company that builds and secures global networks for organizations across multiple verticals around the world. Founded in 2002, Nexum believes that by remaining absolutely focused on its clients’ needs, success necessarily follows. Nexum meets those needs through a holistic, value-based approach that includes best-in-breed products, professional

services, Nexum-branded manufacturer support, authorized training, and monitored and managed security services. At Nexum, We Mean Security®.
