Nexum, Inc. Announces Security Automation Partnership with Swimlane

CHICAGO, IL, February 28, 2022 – [Nexum, Inc.](#), a leader in networking and cybersecurity solutions, announced today the addition of [Swimlane](#), a top provider of low-code security automation, to the company’s growing list of exceptional technology and cybersecurity partners.

Nexum® works with an [ecosystem of manufacturers](#) that provide best-of-breed cybersecurity and networking solutions. Through an extensive examination process, Nexum has built an established base of industry-leading solution providers. These products offer a full range of solutions crucial to the success of any organization’s IT and security operations environment.

[Swimlane](#) is a leading provider of cloud-scale, low-code security automation. Supporting use cases beyond SOAR, Swimlane improves the ease with which security teams can overcome process and data fatigue, as well as chronic staffing shortages. Swimlane unlocks the potential of automation beyond the Security Operations Center (SOC) by delivering a low-code platform that serves as the system of record for the entire security organization and enables anyone within the organization to contribute their knowledge and expertise to the protection of the organization. For more information, visit swimlane.com.

“We’ve experienced continued growth, basing our success on our world-class engineers and integrated solutions. It’s also critical that we build our ecosystem of best-of-breed partners with the best the industry has to offer,” said David J. Lesser, Founder and CEO of Nexum. “Security automation is front and center for our customers today, and we are thrilled to now include Swimlane’s low-code automation platform within our ecosystem.”

Nexum provides its clients with industry-leading products, services, support, and training. For a full list of Nexum’s technology partners, please visit www.nexuminc.com/about/partners.

“We are excited to partner with Nexum, and welcome them into Swimlane’s fast-growing [Medley Global Partner Program](#),” commented Mike Kay, senior vice president of business development, Swimlane. “Our partners benefit from our customer-first approach that combines security technology integrations with industry best-practices. Together, Swimlane and Nexum are poised to provide market-ready cybersecurity solutions that accelerate our customers’ time-to-value and help them extend automation to the entire security organization.”
