Nexum, Inc. to Offer Versa Networks SASE

CHICAGO, IL, March 9, 2022 – Nexum, Inc., a leader in networking and cybersecurity solutions, announced today that Versa Networks, a [secure access service edge](#) (SASE) leader, is now part of its growing list of exceptional technology partners. Nexum will now offer Versa SASE and Versa secure software-defined wide area network (SD-WAN) to its customers.

Nexum® works with an ecosystem of manufacturers that provides best-of-breed cybersecurity and networking solutions. Through an extensive examination process, Nexum has built an established base of industry-leading solution technology providers. These products offer a full range of solutions crucial to the success of any organization's IT environment.

Versa SASE delivers tightly integrated services via the cloud, on-premises, or as a blended combination of both via Versa Operating System (VOS™) with a Single-Pass Parallel Processing architecture and managed through a single pane of glass. Versa began delivering SASE services such as VPN, [Secure SD-WAN](#), Edge Compute Protection, Next-Generation Firewall, Next-Generation Firewall as a Service, Secure Web Gateway (SWG), and Zero Trust Network Access (ZTNA) more than five years ago. Versa uniquely provides contextual security based on user, role, device, application, location, security posture of the device, and content. Gartner has identified Versa SASE as having the most [SASE components](#) out of all 56 vendors Gartner evaluated. Enterprise Management Associates (EMA) also found that Versa SASE has the most [SASE supported functions](#), as published in its 2021 industry report.

"We've experienced continued growth, basing our success on our world-class engineers and integrated solutions. It's also critical that we build our ecosystem of best-of-breed manufacturer partners with the best the industry has to offer," said David J. Lesser, Founder and CEO of Nexum. "We are thrilled to include Versa Networks and its SASE solution within our ecosystem."

"We are pleased to partner with Nexum, a leading cybersecurity and networking supplier providing secure global networks for organizations worldwide," said John Atchison, head of global partner marketing at Versa. "Versa's industry-leading SASE solution provides partners with the ability to deliver unique customer value and capitalize on a rapidly growing market. Our 5-Star rated Versa ACE Partner Program provides partners with the required SASE enablement and marketing support to grow their revenues and their businesses."

Nexum provides its clients with industry-leading products, services, support, and training. For a full list of Nexum's technology partners, please visit www.nexuminc.com/about/partners.

About Nexum, Inc.

Nexum, Inc. is a cybersecurity and networking company that builds and secures global networks for organizations across multiple verticals around the world. Founded in 2002, Nexum believes that by remaining absolutely focused on its clients' needs, success necessarily follows. Nexum meets those needs through a holistic, value-based approach that includes best-in-breed products, professional services, Nexum-branded manufacturer support, authorized training, and monitored and managed security services.
